Expertise

Programming Languages

- Dart , kotlin, Java, PHP

Frameworks

- Flutter , Laravel , Vue.js

Architecture & State

- Clean Architecture, MVVM, MVC
- BLoC , Provider

Backend

- REST APIs
- Authentication
- JWT , Sanctum , API Design

Databases : MySql ,SQLite

Tools & Environments

Git/GitHub , Android Studio

IntelliJ IDEA ,VS Code ,NetBeans

Language

- Arabic
- Technical English

About Me

Software Engineer specializing in Flutter, Kotlin, and Laravel. Experienced in designing and developing scalable cross-platform mobile applications, secure RESTful APIs, and modern web solutions. Passionate about clean architecture, performance optimization, and building high-quality software that delivers real business value.

PROJECTS PORTFOLIO

1. Enterprise Wholesale & Fleet Delivery System

Tech Stack: Flutter • BLoC • Clean Architecture • Laravel • Vue.js • MySQL • SQLite • FCM

- Architected a complete wholesale delivery ecosystem comprising a Customer App, Driver App, and Admin Dashboard.
- Engineered scalable Laravel REST APIs to securely manage user roles, authentication, and complex order workflows.
- Developed robust Flutter apps using Clean Architecture & BLoC, enhanced with offline-first synchronization and real-time notifications.

2. Full-Stack E-Commerce Platform

Tech Stack: Laravel • PHP • MySQL • REST APIs • Js

- Developed a complete e-commerce platform with a scalable backend architecture and administrative management system.
- Built RESTful APIs for product management, categories, customers, orders, and secure payment processing workflows.

3. Yemen Offers - Deals & Discounts Application

Tech Stack: Flutter • Provider • FCM • REST APIs • MySQL

- Engineered a cross-platform application with advanced location-based filtering to discover local commercial deals.
- Integrated dynamic store profiles, optimized image caching, and real-time FCM notifications to boost user engagement.
